The Coronavirus 5G Connection and Coverup

17-22 minutes

The China Coronavirus 5G Connection

is a very important factor when trying to comprehend the coronavirus (formerly abbreviated 2019-nCoV, now COVID-19) outbreak. Various independent researchers around the web, for around 2-3 weeks now, have highlighted the coronavirus-5G link despite the fact that Google (as the self-appointed NWO Censor-in-Chief) is doing its best to hide and scrub all search results showing the connection. The **coronavirus 5G connection** doesn't mean the bioweapons connection is false (it's not a case of either-or), but rather broadens the scope of the entire event. Wuhan was one of the test cities chosen for China 5G rollout; 5G went live there on October 31st, 2019, almost exactly 2 months before the coronavirus outbreak began. Meanwhile, many scientific documents on the health effects of 5G have verified that it causes **flu-like symptoms**. This article reveals the various connections behind the coronavirus phenomenon, including how 5G can exacerbate or cause the kind of illness you are attributing to the new virus. The rabbit hole is deep so let's take a dive.

5G – A Type of Directed Energy Weapon

For the deeper background to 5G, read my 2017 article [5G and IoT: Total Technological Control Grid Being Rolled Out Fast](#). Many people around the world, including concerned citizens, scientist and even governmental officials, are becoming aware of the danger of 5G. This is why it has already been [banned in many places worldwide](#), such as Brussels, the Netherlands and parts of Switzerland, Ireland, Italy, Germany, the UK, the USA and Australia. After all, 5G is not just the next generation of mobile connectivity after 4G; it is a radical and entirely new type of technology – a military technology used on the battlefield that is now being ‘deployed’ (military term) in the civilian realm. It is phased array weaponry being sold and disguised as primarily a communications system when the frequency bands it uses (24GHz – 100+GHz including MMW [millimeter waves]) are the very same ones used in **Active Denial Systems**, i.e. crowd control. Even mainstream Wikipedia describes **Active Denial Systems** as directed energy weaponry; it disperses crowds by firing energy at them, causing immediate and intense pain, including a sensation of the skin burning. Remember, directed energy weapons (DEW) are behind the fall of the Twin Towers on 9/11 and the [fake Californian ‘wildfires’](#).

Numerous scientists have warned of the dangerous health effects of 5G. For instance, in this 5G Appeal from 2017 entitled [Scientists](#)

[and Doctors Warn of Potential Serious Health Effects of 5G,](#)

scientists warned of the harmful of non-ionizing RF/EMF radiation:

“Effects include increased cancer risk, cellular stress, increase in harmful free radicals, genetic damages, structural and functional changes of the reproductive system, learning and memory deficits, neurological disorders, and negative impacts on general wellbeing in humans. Damage goes well beyond the human race, as there is growing evidence of harmful effects to both plants and animals.”

If you listen to Mark Steele and Barrie Trower, you’ll get an idea of the horrifying effects of 5G. In this interview, Trower echoes the above quote by stating how 5G damages the immune system of trees and kills insects. He reveals how in 1977, 5G was tested on animals in hopes of finding a weapon. The results were severe demyelination – stripping the protective sheath of nerve cells. Some nations are now noticing a 90% loss of insects (including pollinating insects like bees) which congregate around lamp-posts where 5G is installed.

Wuhan Military Games and Event 201 Simulation

If you dig deep enough, some disturbing connections arise between 5G and the men who have developed or are developing vaccines for novel viruses like ebola, zika and the new coronavirus COVID-19. In a fantastic piece of research, an author under the pen name of Annie Logical wrote the article [Corona Virus Fakeny And The Link To 5G Testing](#) that lays out the coronavirus 5G connection. There is a ton of information, so I will break it all down to make it more understandable.

The Games will also write another record with defense ministers, military generals and military officers from 42 nations to attend the opening ceremony on Friday. The 5G powered SK TV and VR system will also be used for the first time.

From

October 18-27th 2019, Wuhan hosted the Military World Games and specifically used 5G (for the first time ever) for the event. Also on October 18th, 2019 in New York, the Johns Hopkins Center in partnership with World Economic Forum (WEF) and the Bill and Melinda Gates Foundation hosted **Event 201** – “A Global Pandemic Exercise” which is a simulation of a pandemic. Guess what virus they happen to choose for their ‘simulation’? A coronavirus! Guess what animal cells they use? Pig cells! (COVID-19 was initially reported to be derived from a seafood market, and the fish there are known to be fed on pig waste). Event 201 includes the UN

(since the [WEF now has a partnership agreement with UN](#)), Big Pharma (Johnson and Johnson), Bill Gates (key figure in pushing vaccines, human microchipping and Agenda 2030) and both China and America's CDC. Participants in Event 201 recommended that governments force social media companies to stop the spread of 'fake news' and that ultimately the only way to control the information would be for the WHO (World Health Organization, part of the UN) to be the sole central purveyor of information during a pandemic.

Inovio, Electroporation and 5G

As reported on January 24th, 2020, US biotech and pharmaceutical company [Inovio received a \\$9 million grant](#) to develop a vaccine for the coronavirus. Inovio got the money grant from the Coalition for Epidemic Preparedness Innovations (CEPI), however they already have an existing partnership with CEPI; in April 2018 they got up to \$56 million to develop vaccines for Lassa Fever and Middle East Respiratory Syndrome (MERS). CEPI was founded in Davos by the governments of Norway and India, the Wellcome Trust ... and the participants of Event 201: the Bill and Melinda Gates Foundation and the WEF. CEPI's CEO is the former director of BARDA (US Biomedical Advanced Research and Development Authority) which is part of the HHS. Inovio claimed they developed a coronavirus vaccine in 2 hours! On the face of it such a claim is absurd; what is more likely is that they are lying or that they already had the vaccine because they had the foreknowledge that the coronavirus was coming and was about to be unleashed.

So who owns and runs Inovio? Two key men are David Weiner and Dr. Joseph Kim. Weiner was once Kim's university professor. Weiner was involved with developing a vaccine for HIV and zika (you can read my articles about zika [here](#) and [here](#) where I exposed some of the lies surrounding that epidemic). Kim was funded by Merck (a large Big Pharma company) and produced something called Porcine Circovirus (PCV 1 and PCV 2). As mentioned above, there is a link between pig vaccines/pig DNA and the coronavirus; Annie Logical notes that it *"has long been established that seafood in the area is fed on pig waste."* Kim served a 5-year tenure as a member of the WEF's Global Agenda Council – yet another organ pushing the New World Order One

World Government under the banner of Agenda 2030 **Global Governance**.

Weiner is an employee and advisor to the FDA, is considered a DNA technology expert and pioneered a new DNA transference method called **electroporation** – a microbiology technique which uses an electrical pulse to create temporary pores in cell membranes through which substances like chemicals, drugs or DNA can be introduced into the cell. This technique can be used to administer **DNA vaccines**, which inject foreign DNA into a host's cells that changes the host's DNA. This means if you take a DNA vaccine, you are allowing your DNA to be changed! As if vaccines weren't already horrific enough ... but here's the kicker: electroporation uses pulsed waves. Guess what else uses pulsed waves? 5G! This is either a startling coincidence or evidence or a sinister coronavirus 5G-connection. Annie writes:

"[T]he same action that 5G technology uses in pulsed waves and the coronavirus was reported to have started in an area in China that had rolled out 5G technology! So we can see how geneticists using scientists are tampering with the building blocks of our existence and what is disturbing is that Prof Wiener is a HIV pioneer and we know that soon after the Polio vaccines were given to millions in Africa that HIV emerged. They have perfected the art of injecting animal or bird DNA into human chromosomes which alters our DNA and causes things like haemorrhaging, fever, cancers and even death."

"I've analyzed the entire genome sequence of this virus (**Wuhan coronavirus**) and compared it to the entire genome sequences of all the other coronaviruses that we have data for, and this weird element that doesn't belong there; I've found that it actually did match a vector technology that was published in 1998 in the proceedings of the National Academy of Science.

This vector technology is a mechanism by which molecular biologists insert new genes into viruses and bacteria.

Now It's really unusual to find a vector technology sequence in a virus that's circulating in humans, and so naturally, one thing we can say, I think for certain, is that this particular virus has a laboratory origin. So we can rule out a natural origin."

- James Lyons-Weiler, PhD, Institute for Pure and Applied Knowledge

Speaking of HIV (which is not the same things as AIDS, but that is another story), remember also that [a group of Indian scientists put out their research](#) that the virus was manmade and had HIV inserts. They found that 4 separate HIV genes were randomly embedded within the coronavirus. These genes somehow converged to create receptor sites on the virus that were identical to HIV, which was a surprise due to their random placement. They also specifically stated that this was not likely to happen naturally (*“unlikely to be fortuitous in nature”*). In yet another example of egregious censorship, these scientists were pressured to withdraw their work.

5G and Electroporation DNA Vaccines – Both Producing Pulsed EMF Waves

Consider the implications of this for a moment. The technology exists to use EMFs to open your very skin pores and inject foreign DNA into your bloodstream and cells. This is an extreme violation of your bodily sovereignty, and it can have long-term effects, because of genetic mutation – changing your very DNA which is the biological blueprint and physical essence of who you are.

What if 5G mimics electroporation? What if 5G can do on a large scale what electroporation does on a small scale? We already know that [5G has the potential to be mutagenic \(DNA-damaging\)](#). The frequencies that 5G uses, especially 75-100GHz, interact with the geometrical structure of our skin and sweat ducts, acting upon them like a transmission reaching an antenna, and fundamentally affecting us and our mood.

What if 5G is being used to open up the skin of those in Wuhan so as to allow the new bioweapon coronavirus to infiltrate more easily?

Mandatory Vaccines, Depopulation and Transhumanism

So, what's at the bottom of the coronavirus-5G connection rabbit hole? I would suggest we find **mandatory vaccine agenda**, the **depopulation** agenda and **transhumanist** agenda (via DNA vaccines). The key figures and groups who appear to have planned this already have the vaccine in place, just as they did for the other epidemics that fizzled out (SARS, ebola and zika). Weiner even has links to HIV/AIDS, and if you dive into that as Jon Rappoport did,

you find gaping holes in that story.

It's the same epidemic/pandemic game played out every 2-3 years. There's a couple of versions. In the first version, you invent a virus, hype it up, get people scared, do ineffectual and inconclusive tests (e.g. like the PCR test which measures if a viral fragment is present but doesn't tell you the quantities of whether it would actually causing the disease), inflate the body count, justify quarantine/martial law and brainwash people into thinking they have to buy the (toxic) vaccine and introduce mandatory vaccination. You don't even need a real virus or pathogen for the version. In the second version, you create a virus as a bioweapon, release it as a test, pretend it was a natural mutation, watch how many people it kills (which helps with the eugenics and depopulation agendas), again justify martial law, again justify the need for mandatory vaccines and even pose as the savior with the vaccine that stops it. As a variation on this second version, you can even develop a race-specific bioweapon so as to reduce the population of rival nations or enemy races as a geopolitical strategy. This [article](#) suggests that the coronavirus targets Chinese people/Asians more than others, and certainly the official death count attests to that, although it's always hard to trust governmental statistics. Annie Logical gives her take:

"The con job goes like this.

Step 1) *poison the population purposely to create disease that does not and would never occur naturally*

Step 2) *parlay the purposely created disease as being caused by something invisible, outside the realm of control or knowledge of the average person*

Step 3) *create a toxic vaccine or medication that was always intended to further poison the population into an early grave*

Step 4) *parlay the vaccine or medication poisoning as PROOF the disease, which never existed, is much worse than anticipated*

Step 5) *increase the initial poisoning, which is marketed as a fake disease, and also increase the vaccine and medication poisoning, to start piling the bodies into the stratosphere*

Step 6) *repeat as many times as possible upon an uninformed population because killing a population this way (the art of having people line up to kill themselves with poison.....known as a "soft kill" method) is the only legal way to make sure such eugenic*

operations can be executed on mass and in plain sight.”

DNA vaccines are a disturbing new advancement for transhumanism. After all, the objective of the transhumanist agenda is to merge man with machine, and in doing so, wipe out what fundamentally makes us human, so we can be controlled and overtaken by a deeply sinister and negative force. It's all about changing us at the fundamental level, or attacking human sovereignty itself. DNA vaccines fit right in with that – literally changing your DNA by forcefully inserting foreign DNA to change your genetics, with consequences no one could possibly fully foresee and predict.

One Last Coronavirus-5G Connection

Finally, I will finish with another coronavirus-5G connection. The word coronavirus itself refers to many kinds of viruses by that name, not just COVID-19. Guess who owns a [patent for a coronavirus strain that can be used to develop a vaccine](#)? The Pirbright Institute. And guess who partially owns them? Bill Gates! As you can read [here](#) Pirbright is being supported in their vaccine development endeavors by a British company Innovate UK ... who also funds and [supports the rollout of 5G](#). Innovate UK ran a competition in 2018 with a £15 million share out to any small business that could produce vaccines for 'epidemic' potential.

The Motivation to Hype and the Motivation to Downplay

History has shown that in cases of epidemics (or fake epidemics) there is almost always a morass of conflicting reports and contradictory information. In such situations, it can be very difficult to get to the bottom of the matter and find the truth. The conflict stems from the different motivations of nations, governments and other interested groups. Essentially, there are 2 main motivations: the **motivation to hype** (exaggerate and use fear to grab attention, sell something, make a group look bad/incompetent, make people scared, make the public accept mandatory vaccination and martial law) and the **motivation to downplay** (cover up and hide the true extent of the damage, morbidity or mortality so as to appear competent and in control, to lessen possible anger, backlash or disorder). Sometimes, these 2 motivations may drive the behavior of the same group, e.g. in the case of the Chinese Government, it

has the motivation to hype (to get people afraid so they easily follow its draconian quarantine rules) and the motivation to downplay (so as to appear in the eyes of its people and the rest of the entire world to have the situation under control, to ensure saving face, credibility and a good reputation).

Final Thoughts on the Coronavirus 5G Connection

Governments around the world have experimented with bioweapons both on their own citizens and foreign citizens, and even sold that research to other governments for their own benefit (e.g. Japan's notorious Unit 731 which developed bioweapons in China, only to hand over that research to the US after losing World War 2). See [Bioweapons: Lyme Disease, Weaponized Ticks, Plum Island & More](#) for a brief history of the USG's usage of weaponized ticks which resulted in Lyme Disease. The evidence that COVID-19 is a bioweapon is overwhelming – and so is the evidence that 5G is involved to either cause the flu-like symptoms/pneumonia people have been experiencing, and/or to exacerbate the virulence of the virus by weakening people's immune systems and subjecting them to pulsed waves of EMF to open up their skin to foreign DNA fragments (including viruses).

In this kind of story, there are no major coincidences – only connections and conspiracies waiting to be uncovered.
