24 World Leaders Openly Call For The Great Reset

World leaders are calling for an end to nationalism and isolationism in the wake of the covid-19 pandemic. 24 countries have come together to call for a global settlement like the one reached after the second world war to “protect countries” and build cross border co-operation.

The call by the 24 world leaders is made in today's *Daily Telegraph* and other newspapers around the world including, *Le Monde* in France and *Frankfurter Allgemeine Zeitung* in Germany.

The leaders claim that a new international settlement is necessary ahead of the next international health crisis. They described Covid as the biggest threat to the global community since the 1940's.

“A treaty on pandemics “should lead to more mutual accountability and shared responsibility, transparency and co-operation within the international system and with its rules and norms”, the leaders said.

According to *The Telegraph* today;
(<https://richieallen.co.uk/wp-content/uploads/2021/03/brexit-news-boris-johnson-emmanuel-macron-angela-merkel-1168638.jpg>).

The 24 world leaders warned that regardless of the origins of the outbreak, a future global pandemic was an inevitability.

The group, also including Charles Michel, the European Council president, Mark Rutte, the Dutch prime minister, and the presidents of South Africa, South Korea, Indonesia, Tunisia and Senegal, said the key question was not “if but when” the next health crisis would strike.

They warned that “no single government or multilateral agency can address this threat alone”, arguing: “Together, we must be better prepared to predict, prevent, detect, assess and effectively respond to pandemics in a highly co-ordinated fashion.”

Other central aims of a pandemic agreement would be to enhance international co-operation around alert systems, data-sharing and research, as well as the local,

regional and global production and distribution of vaccines, medicines, diagnostics and personal protective equipment.

The new treaty would be rooted in the constitution of The World Health Organization. "At a time when Covid-19 has exploited our weaknesses and divisions, we must seize this opportunity and come together as a global community for peaceful cooperation that extends beyond this crisis," the leaders said.

This is terrifying. For many years, I have been featuring writers, researchers and academics who warned us that this would happen. This is the end game.

International treaties are about one thing and one thing only, that is, concentrating power in the hands of a tiny elite. It's what globalists have been working towards for decades.

It's much more convenient for corporations and banks to do business with 24 countries who agree to regulatory alignment, than if those corporations have to deal with 24 individual countries whose rules and regulations are different.

This is what the EU was always about. I've been banging that drum for years.

(<https://richieallen.co.uk/wp-content/uploads/2021/03/7c9b637efcf294b3efac30db705c7dd1.jpg>).

Bill Gates, through his subsidiaries the WHO, CEPI and GAVI, and pharma giants like AstraZeneca, GSK and Pfizer, wants to vaccinate the world's population against every illness you can name. AZ, GSK and Pfizer have received billions of dollars in grants from Gates.

June Raine, head of the UK's medicine regulator MHRA, is on the record as saying that countries would be moving away from the traditional approach of treating illnesses when they arise, to a

new era where the focus will be on prevention.

It's claimed that new mRNA technology has opened up a world of possibilities for preventing illness. Vaccines are in development for obesity, diabetes, Alzheimer's, cancers and allergies. Imagine what the vaccination schedule for children could look like in ten years?

Bill Gates wants these vaccines to be approved and rolled-out quickly. The proposed pandemic treaty, which promises "mutual accountability shared responsibility and co-operation" between 24 countries, will make it easy for him.

French President Emmanuel Macron has been criticised for his government's failure to approve coronavirus vaccines as quickly as the UK. France is being locked down again. German Chancellor Angela Merkel has faced similar criticism.

A global pandemic treaty would solve that problem. A new vaccine wouldn't need to be assessed for safety and efficacy by regulators in 24 countries. It would only need to pass one inspection.

There will be alignment on travel and vaccine passports too. The world leaders, in today's article said;

(<https://richieallen.co.uk/wp-content/uploads/2021/03/digital-immunity-passport.jpg>).

It (the treaty) would also include recognition of a "One Health" approach that connects the health of humans, animals and our planet. And such a treaty should lead to more mutual accountability and shared responsibility,

transparency and co-operation within the international system and with its rules and norms.

Over time, the treaty will inevitably be amended to deal with Climate Change. It will be repeated more frequently, that global warming has an impact on health, and therefore, regulatory alignment to deal with it will be necessary.

The article, published in today's *Daily Telegraph* and newspapers around the world, is signed by;

. V. Bainimarama, prime minister of Fiji; António Luís Santos da Costa, prime minister of Portugal; Klaus Iohannis, president of Romania; Boris Johnson, prime minister of the United Kingdom; Paul Kagame, president of Rwanda; Uhuru Kenyatta, president of Kenya; Emmanuel Macron, president of France; Angela Merkel, chancellor of Germany; Charles Michel, president of the European Council; Kyriakos Mitsotakis, prime minister of Greece; Moon Jae-in, president of the Republic of Korea; Sebastián Piñera, president of Chile; Carlos Alvarado Quesada, president of Costa Rica; Edi Rama, prime minister of Albania; Cyril Ramaphosa, president of South Africa; Keith Rowley, prime minister of Trinidad and Tobago; Mark Rutte, prime minister of the Netherlands; Kais Saied, president of Tunisia; Macky Sall, president of Senegal; Pedro Sánchez, Prime Minister of Spain; Erna Solberg, prime minister of Norway; Aleksandar Vučić, president of Serbia; Joko Widodo, president of Indonesia; Volodymyr Zelensky, president of Ukraine; Dr Tedros Adhanom Ghebreyesus, director-general of the World Health Organisation

Gates is an utter twat for thinking he can cheat Nature. Its a fickle beast and will wait. Wait til you eat a piece of fruit that has been gene changed by Nature to weaken your vaccine flooded body, to then step in with a mossie late at night.

Yes all part of the Fourth Industrial Revolution.. or rather The Fourth Reich..

Oh just a conspiracy theory?

Well if that is the case then why does the UK government publish articles on it?

I mean, you have to ask 'Where did our own Health Secretary come from? One of the main proponents of the lockdowns. You would think in these times, logically, the guy would have a long history of medical/health experience..?

In 2017 he was a rather unknown Minister for Digital, media, culture and sport..

Incase you missed it, this following article is what he had to say about The Fourth Industrial Revolution (now rebranded as 'new normal', 'build back better' or 'The Great Reset). And is still published on the UK Governments website for everyone to see:

UK govt leaders have been touting "Build Back Better" for some time. The web site

<https://www.buildbackbetteruk.org/about-us>

[\(https://www.buildbackbetteruk.org/about-us\)](https://www.buildbackbetteruk.org/about-us), says that "Build Back Better UK is hosted by Green New Deal UK" and lists a huge number of organizations which support it.

Mass obedience has led to the creation of this Pandemic Treaty.

Our "leaders" believe that they have a social licence to do what they like.

What we need now is **mass civil disobedience** everywhere, or we will see further consolidation of global corporate interests.

1. **Refuse to wear a mask**
2. **Refuse to socially distance**
3. **Refuse to stick to your bubble**
4. **Refuse to take PCR test**
5. **Refuse injection**

I agree – mass civil disobedience is necessary. The demos on 20 March were quite impressive, but even “the largest protest event in human history” in Feb 2003 failed to stop the Iraq war. https://en.wikipedia.org/wiki/15_February_2003_anti-war_protests (https://en.wikipedia.org/wiki/15_February_2003_anti-war_protests).

Many of the general public have believed globalization to be a good thing. Wrongly thinking that it would be a utopian 🌍 world. Where there are no more wars and we all sit around and sing round the camp fire, roasting marsh mellows and drinking home made wine. The reality, as Richie touches on above is Very different. Because the utopian globalist argument, rests in the false assumption that those in power have our best interests at heart. And that those who get to power, will be people we can trust. Both these premises are false. And they are part of what has brought the current situation to a head. These beliefs also stem from people not believing in their own strength, and wanting others to take control over them, because of this.

There is also the question of, if the whole planet is the same. Where do you go, if you don't like what you get. We are seeing the answer to that now.

The original anarchists movement didn't believe in violence. It was the Nialists that were violent. But they both had similar beliefs. They believed that communities should largely govern themselves locally and that countries should do the same. And that people should vote for individual policies where possible. They believed that this would stop too much power, being held by too few. As they saw the danger in that idea. It's turning out to be most unfortunate for us, that they didn't succeed in their aims.

If this is allowed to continue, if we can't pull this back, the future is unthinkable. It's everything Orwell predicted in “1984 ” with the chemical dependency, Eugenics and biological engineering of Huxley in “ Brave New world” 🌍. This is the fulfillment of what is carved in stone, on “ The Georgia guide stones”. A slave population of half a billion transhumans.

Yesterday I went out to do my banking and shopping, on a gloriously sunny ☀️ day, at the start of spring. Normally this should have been a pleasant enough experience. Instead there is a darkness that can be felt and seen everywhere. People on the streets, miserable in covered faces and security on the doors of various premises. Intimidating anyone who dares to walk past them without hand sanitizing and putting a mask on. How long before people start turning on the unvaccinated. ?. We are rapidly turning into a world divided into two groups, “ the believers ” who believe in this scam and incredibly still believe in the system. And “the unbelievers”, who can see the truth.

This is not a country I recognize anymore. We are under occupation from a foreign power. We are now being governed by “ Technocratic, globalist facists “. And people seem to be mostly unaware of this fact and happy to go along with the insanity. What we need is more people to stop believing in this hoax and stop believing in the system. And to start believing and trusting in themselves and their own strength and power.

“ Do not put your trust in Prince's
Do not put your trust in the rulers of this world.
But trust in your own judgment and the spirit within.
For our battle, is not against flesh and blood,
But against the dark forces of this world
And the power, that is within us,
Is greater than the power, that is within the world. “

Excellent post. As in Brave New World I think we need to set up separate communities but I'm sure we can make them a bit better than the savage reservation in the book. Aldous Huxley himself thought he made the alternative to the establishment too bleak. The last book he wrote is a book called Island about the society he would like to see and I do recommend it.

When I talk to people on my walks who are aware most of them want out but don't know how to do it. This I think needs to be next stage, to work out how to do this.

I think independent journalists like Richie are essential for people who are waking up and searching for the truth but, after more than a year, I think trying to wake people up on an individual basis who are unwilling to listen is really a waste of time.

If after a whole year people still believe this crap, then they are dead and beyond reach. don't waste your precious time.

Re not listening to MSM, we all listen to it on a daily basis through the likes of Richie who spends several hours a day watching, listening and reading it so he can inform us of whats going on,, spare a thought for the poor buggar doing that for us, so we don't have to,

They have planned everything down to the finest details and remain a great many steps of us.

Accepting reality does not make us defeatists, indeed it gives us an edge, admittedly only a very slight one – but expecting and planning for the worse gives you a better chance of perhaps pulling something out of the hat ! The lockdown protesters (and i respect them a lot) will never achieve the numbers that the Iraq WMD protesters massed – and exactly what did a million plus protesters achieve ? Living somewhere like USA where you can drop off the grid and disappear into the mountains and deserts with your AR15 is one thing,, but lets face it living in England with a few tins of baked beans and a crossbow in your bug out bag, well good luck finding somewhere to hide ! the big cities like London where you used to be able to disappear, use a false name work for cash in hand and rent a dingy room for cash is becoming harder to do, cctv everywhere and the possible cashless system combined with the vaccine passport will make it almost Impossible to hide, sure you will be able to work for food and

accomodation, but that will be it, almost reminiscent of the Victorian Workhouses, and lets face it the big Cities are where you least want to be.

Good point Craig, but possibly a fine line (with numourous opinions on that) as what constitutes the difference between being alive or living life, one only has to think about the millions hiding in their houses with pasta and loo roll for the last 12 month and compare with 12 month down a old mine with pasta and loo roll, if i had to chose the best of the 2 options then the mine i guess would win – but not much of a choice really, but as the saying goes better to die on your feet than live on your knees so would join you at least while we try figure what to do next.
